## JOSEPH F. MARTIN

Perennial Nurseries LIBRAR PAINESVILLE, OHIO

One of our two-year fields of Peonies. The divisions sold are always taken from two- or three-year plants, assuring you three- to five-eye root full of vitality.

#### **PEONIES**

Immediately after first of September, we will move our entire stock of Peonies. Our divisions are made for sale and for our own plantings. The varieties listed herewith, we have in good quantities and are able to offer same to our customers at the following reasonable prices. By checking over the list, you will find that we have the outstanding standard sorts and also the best of the exhibition types.

In making your purchases, we ask that you take into consideration our methods of production. Our fields are worked from early Spring until the plants are ready for transplanting. They are highly cultivated throughout the season which assures you of receiving roots well developed and should give a maximum amount of flowers after planting.

Please note the field shown on the cover are two-year plants showing good healthy growth and also a fine crop of flowers. Every root shipped is guaranteed true to name. We will either replace the plants or refund the price paid if any are found not true.

ALEYRIE. Pure white with a few penclings of carming not the edge of center petals. Fragrant 2.00 18.00  ALERT CHOISSE. Large, very full, convex 1100ms of soft shell-pitch. A brilliant publ. Interpretations of soft shell-pitch. A brilliant publ. Interpretations of soft shell-pitch with shadings of flesh, One of the finest Peonles.  BRONESS SCHROEBER, Rose type; late. #### IRIS GERMANICA

German Iris

From the second week of July on, we consider the best time to transplant Iris Germanica. We have found that the tops are well ripened and the roots can be moved and transplanted with very good results. If planted at this time, the plants will immediately start making a new growth and the following Spring they will flower almost to perfection. You will gain an entire year on the production.

We believe we have a list of varieties which will cover the outstanding sorts such as Ambassadeur, Lord of June, Gold Imperial and other varieties equally as good. The older varieties we are listing are the sorts that are maintained in cultivation because of their beauty and will readily sell, either for catalog work or for all sorts of resale purposes. We ask that you kindly take time and check over our list. We always ship plants of good quality.

# Our wholesale catalog of perennials, showing special designs for Florists and also perennials for either garden or rock garden plantings will be ready first of September.

We are at this time taking our field counts of all perennials for sale Fall 1931, and Spring 1932. In checking over our plantings, we find that our list will be greatly improved with many hardy plants which in the past we did not grow. This can be eredited to our new propagation facilities added to our nurseries within the last two years.

In making selections of the desirable varieties of perennials to grow for all classes of trade, we make purchases of seed and importations of plants from practically every country where good perennials are grown. These plants are tested for their desirability, also their beauty and for the purpose for which they can be used.

Therefore, in planning your purchases, if you will select according to our classifications and descriptions, you will be able to get the suitable perennials for your special requirements. If you are not on our mailing list, please write for a copy of our eatalog. We are sure that you will find the information contained therein very helpful.
